	2000 Close and refreshments

About This Event

The Mayor of London's Mayoral CIL Charging Schedule is expected to come into force from April 2012 and a number of London boroughs are already at an advanced stage in setting their own CILs. This event will not cover the charge-setting process, but will instead aim to answer questions on the practical payment and collection of CIL from both an applicant and local authority perspective.

Booking Your Place

This event is free and open to all those who work or study in planning and related built environment professions. However, if demand is high preference will be given to RTPI members. To confirm a place please email london@rtpi.org.uk. Alternatively, please call 020 8613 8357. Places are limited and will be provided on a first-come first-served basis.

Professional Development

This event is intended to assist RTPI members with their CPD requirements. (Please note: the responsibility for judging the relevance and value of events and other forms of CPD lies with the individual RTPI member).

About RTPI London

RTPI London promotes planning as a profession and builds links with other built environment professions and organisations throughout Greater London. We offer members a programme of affordable seminars and events to assist with their continuing professional development requirements, and also publish a regular newsletter for members.

About our sponsors – Idox

Idox group supplies innovative software solutions and information services to the public sector and is the leading applications provider to local government for core functions relating to land, people and property. Idox is committed to helping public sector organisations deliver improved services at lower costs. Over 90% of UK local authorities are customers and over 300 local authorities and government bodies use Idox Planning solutions which include back-office application processing, electronic document management and web based publishing and consultation solutions.

Idox is completely committed to improving the planning process via the utilisation of IT in ways which transform administration processes, increase the effectiveness of stakeholder engagement, provide significantly improved access to citizens and reduce costs.

For more information about Idox, please see our website at www.idoxgroup.com.
