- RTPI Training - Kathryn Thomson
- Recent RTPI reports
 - Chief Planning Officers II
 - The Planning Profession in 2019
 - Resourcing Public Planning

Building Beautiful

- New focus on design from Government
- Building Beautiful, Building Better Commission
- Interim report, July 2019

Building Beautiful...

A level playing field.

... More predictable design policy and standards... should remove a degree of speculation on negotiating down planning requirements to increase land values. This needs to be accompanied by greater probability of **enforcement** if clearer rules are broken with stricter sanctions.

Building Beautiful...

Policy Proposition 23: ensuring enforcement.

Where good master plans or designs are approved it is *those* schemes that should be built - not a diluted version down the line. There should be a greater probability of **enforcement** and stricter sanctions...

Building Beautiful...

- Final report due before the end of the year
- New Secretary of State, Robert Jenrick
- New era for enforcement?
