

THE TIA RAP

by Cliff Hague

Hey, you planners, hear what I say:
Can you do a TIA?

If you can't analyse territory
Then who else is gonna see
Where sector policies do impact?
Now I'm tellin' you, that's a fact!

Hey, you planners, hear what I say:
Can you do a TIA?

I'm sure nobody here's a fool,
But unless you have a TIA tool,
How can you ever make a plan?
Is control of development just a sham?

Hey, you planners, hear what I say:
Can you do a TIA?

TIA is about integration,
Done for EU and the nation,
Territorial cohesion must be measured
Then the work of planners would be treasured!

So, hey, you planners, can I hear you say:
"Yes, we can do a TIA"?
